NOTE

Our books are actually **full-blown courses** for traders. Each is designed to deal with a different aspect of trading.

These are not books that try to teach you some magic indicator. They teach you how to trade the reality of the markets.

You're looking right over Joe Ross' shoulder at **real trades** made in real markets. You are told when, why, and where the trade was made. You are shown his thinking when the trade was made. You see how, when, and why he entered a trade and how, when, and why he exited the trade.

We get letters and calls all the time telling us that our courses are worth their weight in gold, and we offer a no questions asked, **money-back guarantee** on every book still in saleable condition.

Trading Educators, Inc. (formerly Ross Trading International, Inc.) was founded in 1988, and has thousands of satisfied customers who have used the Joe Ross methods to **produce significant positive results** in the markets. Trading Educators, Inc. is registered with the Commodity Futures Trading Commission (CFTC), and the National Futures Association (NFA).
